

# INTERNATIONAL ANDROLOGY CADAVER COURSE

---

**Artificial Sphincter Surgery : August 23 ,2025**

**Penile Prosthesis Surgery : August 24 ,2025**

**Duration: 2 Days (1 day for each topic)**

**Location: Acibadem CASE – Acibadem University ,**

## Objective and General Overview

This two-day **Hands-on Cadaver Training Program** is specifically designed for urologists, andrology specialists, pelvic floor surgeons, as well as physicians and assistants working in related surgical fields, with varying **levels of experience from beginner to advanced**. The program focuses on two surgical interventions that play a critical role in current clinical practice: **Artificial Urinary Sphincter (AUS) Surgery and Penile Prosthesis Surgery**.

Participants may choose to attend only the specific training that aligns with their interest or opt for the full two-day comprehensive training experience. The educational content is structured in a **Step-by-Step** modular format, offering a systematic progression from fundamental theoretical knowledge to advanced surgical techniques.

Each day of the training is enriched with **scientific presentations, case analyses, surgical video demonstrations, and Hands-on Cadaver Dissections**. Participants are guided by expert instructors throughout the course, providing them with the opportunity to **transform theoretical knowledge into practical skills**.

## FACULTY

Assoc. Prof. Dr.  
**Murat Aydos**

Assoc. Prof. Dr.  
**Efe Önen**

# Day 1: Artificial Urinary Sphincter Surgery Cadaver Course

**Purpose of Training:** This course is structured to teach in detail the entire implantation process of the artificial urinary sphincter (AUS) system used in the surgical treatment of advanced urinary incontinence, especially in men.

## COURSE SCHEDULE

### 09:00 – 09:30 | Registration & Opening

- Participant welcome
- 

### 09:30 – 10:15 | Theoretical Session I – Urinary Incontinence and AUS System Overview

- Indications
  - System structure and planning
- 

### 10:15 – 11:00 | Theoretical Session II – Surgical Technique

- Perineal & Penoscrotal approach
- 

### 11:00 – 11:15 | Coffee Break

---

### 11:15 – 12:00 | Video Presentation & Case Discussion

- Surgical video demonstration and Case analysis

### 12:00 – 12:30 | Lunch

---

### 12:30 – 16:00 | Applied Cadaver Dissection

- Instructor demonstration
- Participant practice | Evaluation & Certificate Ceremony

## Day 2: Penile Prosthesis Surgery – Cadaver Course

**Purpose of Training:** This training aims to provide participants with scientific background, surgical techniques and practical dissection skills in implantation surgery using 3-piece and malleable penile prosthesis systems.

### COURSE SCHEDULE

#### 09:00 – 09:30 | Registration & Opening

- Participant welcome
- 

#### 09:30 – 10:00 | Theoretical Session I – Introduction to Penile Prosthesis Surgery

- Indications, patient selection, system types and preparation for surgery
- 

#### 10:00 – 10:45 | Theoretical Session II – Surgical Technique and Complications

- Scrotal and infrapubic approaches
- Technical details
- Complication management

**10:45 – 11:00 | Coffee Break**

---

**11:00 – 12:00 | Video Presentation & Case Discussion**

○ Surgical video demonstration

---

**12:00 – 12:30 | Lunch**

---

**13:00 – 16:00 | Applied Cadaver Dissection**

○ Instructor demonstration

○ Participant practice

---

**16:00 – 16:30 | Evaluation & Certificate Ceremony**
