

# STEP-BY-STEP

## MEDICAL AESTHETICS CADAVER COURSE

---

**Date:** Aug 31 – Sep 1, 2025

**Address:** Acibadem CASE | Istanbul, Turkey

**Duration:** 2 Days | Level: Beginner – Intermediate – Advanced

**Cadaver Type:** Fresh Frozen

---

### Instructors:

-Assoc.Prof.Dr. **ERGUN SEVIL** - Course Director

-Dr.**Hayati Kale** - Faculty

-Assistant Professor.Dr.**Özlem ÖZTÜRK KÖSE** - Anatomist

---

### Topics

Liquid Facelift , Migraine Botox ,Full Face Botox , Mesotherapy ,  
Dermal Fillers , Anatomy

## Program Objective:

This two-day structured training program is designed for medical professionals aiming to enhance their knowledge and practical skills in aesthetic procedures. The course covers scientifically grounded theoretical knowledge and cadaver-based hands-on training to build technical competence. Each module follows a step-by-step progression, starting with theory and followed by practical application on **Fresh Frozen Cadavers**.

## Day 1 – Facial Aesthetics and Injection Techniques

### Morning Session: Theoretical & Anatomical Lectures

**09:00 – 09:30 | Registration & Welcome**

**09:30 – 10:45 | Liquid Facelift and Aesthetic Planning**

- Aging-related facial changes
- Volume loss and restoration
- Combined filler techniques
- Strategies to avoid complications

**10:45 – 11:00 | Coffee Break**

**11:00 – 12:30 | Facial Anatomy and Injection Safety**

- Superficial and deep fat compartments
- Facial ligaments, vascular and nerve structures
- Safe zones and risk areas

**12:30 – 13:30 | Lunch Break**

**13:30 – 14:00 | General Facial Anatomy – Cadaver Demonstration**

- Live cadaveric demonstration of muscles, nerves, vessels
- Key anatomical regions in facial aesthetics

### Afternoon Session: Hands-on Training

**14:00 – 15:30 | Full Face Filler Application**

- Zygoma, nasolabial, jawline, chin, infraorbital areas
- Cadaver-based hands-on session
- Instructor feedback and guidance

**15:30 – 15:45 | Coffee Break**

**15:45 – 17:30 | Full Face Botulinum Toxin Application**

- Forehead, glabella, masseter, platysma techniques
- Functional muscle analysis and dose planning
- Post-injection anatomical review

## Day 2 – Migraine & Full Face Botox, Mesotherapy, and Master Dissection

### Morning Session: Theory and Clinical Modules

#### 09:00 – 10:30 | Migraine Botox: Indications and Anatomy

- Botox for chronic migraine
- Head and neck muscle anatomy
- Trigger points and safety zones

#### 10:30 – 10:45 | Coffee Break

#### 10:45 – 11:30 | Full Face Botox: Theoretical Overview

- Botulinum toxin mechanism
- Regional muscle patterns
- Technique planning
- Preventing complications

#### 11:30 – 12:30 | Mesotherapy: Theory and Anatomical Basis

- Skin and subcutaneous layers
- Mesotherapy agents and effects
- Target zones: face, scalp, neck

#### 12:30 – 13:30 | Lunch Break

## Afternoon Session: Practical Applications and Dissection

### 13:30 – 15:00 | Cadaver-Based Practice

- Migraine and full face botox techniques
- Mesotherapy for facial rejuvenation and scalp
- Injection depth and precision

### 15:00 – 15:15 | Coffee Break

### 15:15 – 17:00 | Master Dissection Session

- Layer-by-layer dissection of facial anatomy
- Identification of vessels, nerves, and muscles
- Anatomical correlation with injection sites

### 17:00 – 17:30 | Certificate Ceremony and Closing

## **Academic Excellence at an Accessible Price!**

**Extensive Capacity: 120 Participants and 30 Fresh Frozen Cadavers for Hands-On Training**

**Hands-On**

**Only 650 €**

***Access to knowledge is a fundamental right. Designed with this vision, the Medical Aesthetic Cadaver Course stands out with its scientific content, multidisciplinary approach, and cadaver-based training.***

# REGISTRATION TERMS

Passport I Medical Diploma

## Additional Information:

Course participants will have the opportunity to complete all practical sessions on the listed topics and will participate in the master dissection. If you wish to perform the dissection on your own Cadaver, this service requires an additional fee and the submission of a **Surgical or Anatomical Diploma**
